English Reform. It is a little strange that the great measures of reform which are now so strenuously insisted upon in England, were agitated for very many years since in the less advanced kingdom of Ireland. The extension of the franchise—the proportioning of representation to population -the vote by ballot-the removal of exclusive tests founded on difference of religious faith or others matters not justly cognizable by the civil authority.

The people in England have grown sick of routine and red-tape. They feel that as things stand, the name and forms of constitutional government do not include all the substance that such name and forms imply. They see how, under the existing system, the greater and the lesser offices and emoluments, perquisites and privileges of the State are all divided among the adherents of particular great families, and that, in the periodical vibrations of parlimentary leadership the first position pertains sometimes to one member of this high guild, sometimes to another, but always to a member of some of the great houses. It may be a Russell of the ducal house of Bedford. A Temple with the Irish Viscountry of Palmerston, a Stanly under the name of Earl Derby, or some other, of that sort, whig or tory makes little difference. These people stand by their order, and between the haughty whig and tory nobles there is always more sympathy than between either and the people, and the English people, much as they are adicted to worshipping live lords, have got sense enough to see this

The miserable results of aristocratic incompetence and ministerial favouriteism in the Crimea, opened the eyes of England to the necessity of infusing some fresh blood into the governmental system of the nation, and thus the agitation for legislative reform which had rested during the clash of arms, recommenced with fresh vigor, until now the friends of the largest extension of Palmerston, Lord John Russell, Sidney Herbert, Mr. the city in the whole Southern country that has ever the Democracy against them in the future. He had suffrage and the greatest equalization of representation | Bright, Nr. Ellice, Mr. Roebuck and others. number some 240 members of the House of Commons. not quite half, but more than one-third of that body.

The fact is, that the county and minor borough reprea great extent, quite as aristocratic an element as the that had lost all weight was not fit any longer to be in-House of Lords itself. They are, in many instances, the sons of peers, the brothers of peers, or some relatives or for attacking the Derby administration directly through continue to gaze, till distance, refusing longer to "lend this all parties were in favor of the measure; heretofore connections of peers, or they owe their seats to the influ- a vote of "want of confidence." Lord John Russell enchantment to the view," obscures it altogether. I the opposition have opposed all such measures; he proence of some members of the peerage. Or they belong concurred with Palmerston. Mr. Bright hoped the to old and wealthy county families-to that untitled whigs would adopt a more comprehensive system with from these influences. It is doubtful, however, whether go for keeping them in office. Palmerston explained brief space of an ordinary newspaper letter 1 cannot peaceable mode, that is to buy it. The next step is to yeas 101 nays. other influences, equally potent, are not brought to bear that in his opinion nothing was so conducive to the inchoice among the nominal electors.

quite as oppressive as that of a landed aristocracy. The power of associated capital or accumulated wealth, is and, or even that portion of them admitted to the exercise of the elective franchise.

sented by Bright, Cobden and others in England, and by as an amendment, by a vote of 323 to 310. This is several men of talent in Ireland, claim such an extension | not a heavy majority, but we suppose it is decisive after of the right of suffrage as shall approximate it to that the appeal to the people. A Thousand a Day.

Since the actual commencement of hostilities in Italy the number of killed on both sides has been fully a thousand a day. Already an army of thirty-seven thousand men has taken up its last bivouac on the plains of Italy, never more to leave it until the last trump shall sound. That silent and ghastly army of mangled corpses is each day recruited by a thousand brave men, picked men, the leaders in every charge, the foremost in every battle. Theirs indeed are "funeral marches to the grave," whether they come from gay and thoughtless Paris, from the wild and primitive regions of Brittany, from the soft shores of the Mediterranean, from the wide plains of Hungary, the passes of the Tyrol and Savoy, or the sunny slopes of the Appenines. And still they march, and the hopes of the husbandman are ruined, and the fruits of industry and the monuments of art are crumbled to dust by the rushing cannon ball, and the humble peasant is driven from his home, and his family scattered, perhaps dishonored; and this is glory and regeneration. The millenium is a good way off yet, be sure of that.

Trotting.

On Saturday last, the advertised race between Mr Grant's horse "Buck" and Mr. Currie's horse "Tom Booker," mile heats, best two in three, came off over the Currie course, about a mile from town. The stakes were \$500 a side—the trotting done in sulkies. Owing to the threatening appearance of the weather, the attendance was not large, nor, on account of the very heavy rains which had fallen was the course in a state to admit of the fastest time being made.

The first heat was ruled out by the judges. The next two heats were taken by "Buck," although vigorously contested by Tom. It would appear that some accident occurred to Tom's traces, whereby during a part of the time they came loose. Whether this affected his chances of success we cannot say. We heard that the time was 2m. 45s., 2m. 45s. and 2m. 47s.

THE BAYONET .- Military men have queer ideas of beauty. Old General Napier, in his report of one of his Indian fights, speaks of a gallant regiment that worked "sweetly" with the bayonet, and another old blunderbuss of a fighting man calls the bayonet a "lovely" weapon. A French account of the battle of Magenta eulogizes the bayonet in the most ecstatic terms as the " queen of weapons."

bayonet. Half a yard of cold steel in one's abdomen not unfrequently of men. does not promote digestion. Upon the whole, it is unthat it tickles those who "take," to death.

But what we meant to say was that in the last resort the bayonet must tell the tale. The army that uses that sweet and charming instrument best, generally comes off conqueror. All the new improvements in fire arms have not deprived pluck and muscle of their predominance.

The Almanac says that just about now we are enjoying the longest days in the year. From No. 5 Beekman street. Price \$5 a year. the 21st of June till the 1st of July there is little if any appreciable change. The sun stands still over the northern tropic and the weather near the mouth of the Cape Fear River is warm and somewhat moist.

The Defeat of the British Ministry.

having at no time a definite policy, was at any moment liable to be turned out. It might be regarded rather as a locum tenens-a government ad interim-than an actual power. Some months since it received a positive check, having been defeated on a test motion arising out of the proposed scheme of Parliamentary reform brought and ministerial leader of the House of Commons.

Two courses were open for the administration-to resign or to appeal to the constituencies by a dissolution of the sitting Parliament, and the election of a new one. The latter course was chosen; Parliament was dissolved -an election was held-there appeared to be a gain of some twenty-five members of the House in favor of the ministry, which still left its reliable supporters considerably less than a majority of the House. The opposition, cool, and thanks and blessings on the previous rains, however, was composed of not very harmonious elements, embracing the Peelites, who might be called the liberal conservatives-the Whigs, represented measurably by statesmen of the Lord John Russell and Palmerston out of the city. Now, Lynchburg is emphatically a school, and the advanced liberals, of whom Mr. Bright, Mr. Roebuck and others, of what is known as the Manchester school," are looked upon as leading expo-

A singular duel took place in Montreal last week-One of the City Councillors was accosted in the street by a stranger, who told him he was no gentleman. The NEW GOODS,

P. P. P. SIDE, STOMACH OR BACK PAINS

Are cured, and comfort obtained by using PARK'S PRICKLY PLASTERS.

They are unlike any other plaster. They are composed of medicated gums that extract ail coagulated impurities, and impart strength by reaching the seat of disease, and setting the vital fluids in healthy motion. They are divided in sections, and yield to the motion of the body. They are porous; hence, retain no excretion, and may be worn any ength of time without becoming offensive, all weak and delicate persons should have them. Take no other. Order

SAVE YOUR GARDENS.

Mr. E. Lyon, a French C emist, discovered an Asiatic plant, the powdered leaves of which is a deadly poison to garden worms, ants, roaches, bedbugs, ticks, fleas, and all species of Insects, while it is perfectly harmless to mankind and domestic animals. A child can eat it. He has received medals from Russia, France, England, Germany, and numerous medical colleges and societies. It is a most important treasury, it is democratic policy to deposit it with the discovery. The idea of being rid of these pests in warm State. Mr. B. had committed two blunders. One his weather is a luxury. We can now hear the bed-bugs la-

> Lyon's Powder, sure as fate. Will our race exterminate.
